

My name is \_\_\_\_\_, I am a member of the MSCA Championship Adjudication Committee. Your opposition has raised concerns about unsafe rock speeds,

As a member of the MSCA's Provincial Adjudication Committee, I have been tasked with monitoring the concerns. I will start to monitor both teams' rock speeds using a hand held stop watch.

Any rocks exceeding a safe rock speed (hog-to-hog time of 7 seconds or less) will be removed from play and all affected rocks returned to their previous position(s). Times will be recorded for your information.

All Adjudication Committee/Umpire speed of rock decisions are final and not subject to challenge.
