

My name is \_\_\_\_\_, I am a member of the MSCA's Championship Adjudication Committee. Your opposition has raised concerns about failing to release your rock before the hogline,

As a member of the MSCA's Provincial Adjudication Committee, I have been tasked with monitoring the concerns. I will start to monitor both teams watching for hogline violations.

Failing to release the rock prior to the hogline will result in removal of the rock in violation and replacing any affected rocks to their previous position(s).

All Adjudication Committee hogline decisions are final and not subject to challenge.
